

CATER TOTS

Great Meals for Growing Minds

MAY MENU TESTING

During the month of May, Cater Tots will be testing some new food options and menu suggestions that we received from parents & students in the hope to offer these options in the new school year. We really value all feedback and always try to accommodate the request that we receive.

- ◆ There has been a calling for a Hot Pizza Entree for a while now. Our team believes that we have finally found a tasty product that can be transported and delivered in a manner that does not compromise the quality of the pizza. This option will be available on May 7, 9, 13, 15 & 17.
- ◆ We will also be testing a new fully ORGANIC MENU (all components from proteins, breads, spices and sauces- everything will be Organic). For one week in May a separate organic menu will be available with a vegetarian and a meat option. This will allow us to gauge the demand as well as test the suppliers, processes and procedures to make sure that it is a feasible option that can be offered to parents at reasonable price for the organic food. The menu will be available online on May 6th for service the week of May 13th - 17th.
- ◆ We are also working on re-introducing some old popular items as well as working on some new options. Keep an eye out for these.
- ◆ Cater Tots will be upgrading our equipment used to hold hot lunch entrees. We are replacing all non-electric Cambros with electric Heatmax "Made in America" warmers where possible. This new equipment will ensure better holding time, temperatures and food quality.

We urge our parents and students to please use our "Contact Us" section on our home page and leave comments about the new May offerings in order to help us better serve you.

Thanking You,
The Cater Tots Team !
